

— Security Screen Window Frame Assembly

Advanced Screen Systems and Quanex have collaborated to create the first-ever security window screen system that attaches to OEM hung and sliding window configurations as an upgrade to insect screens.

Key Product Functions

- Mates with existing insect screen tracks.
- Removable for window cleaning and maintenance.
- Covers the active & passive window panels.
- Installed during the OEM manufacturing process or the job site.
- Compatible with vinyl, aluminum, and wood windows.
- Does not encroach on standard window hardware.
- Designed to meet AAMA 1901-25 security standards for windows & ASTM 2090-21 standard for fall prevention devices
